## Statement regarding Conflict Minerals

Dear Customer,

The Dodd-Frank Act does not affect our fluoroplastic products. Fluoroplastic is the generic name for PTFE, FEP, and PFA.

Adtech supports responsible sourcing throughout its supply chain. Based on our current knowledge and information provided by our raw material suppliers, we can confirm that the fluoroplastic products we regularly supply do not intentionally contain tantalum, tin, tungsten, or gold (3TG conflict minerals). Accordingly, these products are not subject to the conflict minerals reporting requirements of Section 1502 of the Dodd-Frank Act.

If your organisation requires a copy of our current Conflict Minerals Reporting Template (CMRT) in Excel format, please let us know and we will be happy to provide it.

Please do not hesitate to contact us should you require any further information.

Yours sincerely,

Samantha Deverell

Managing Director
