Statement regarding compliance obligations under Regulation (EU) 2025/40 on Packaging and Packaging Waste (PPWR)

Dear Customer,

This statement has been prepared to support our customers' compliance with Regulation (EU) 2025/40 on Packaging and Packaging Waste (PPWR).

Packaging Description:

This statement applies to the following packaging materials used in the supply of our products:

Packaging Category	Description	Material
Packaging	Plastic reel	Polypropylene (PP)
Packaging	Cardboard reel	Cardboard
Packaging	Plain layflat	Low-density polyethylene (LDPE)
Packaging	Printed layflat	Low-density polyethylene (LDPE)
Packaging	Paper tape	Paper/cardboard (fibre based)
Packaging	Adtech printed tape	Acrylic – 30% recycled content
Packaging	Fragile tape	Polypropylene (PP)
Packaging	Heavy tape	Not confirmed
Packaging	Clear tape	Acrylic – 30% recycled content
Packaging	Reinforced tape	Composite – paper/cardboard + plastic
Transport packaging	Double-wall cardboard boxes	Paper/cardboard (fibre based)
Transport packaging	Single-wall postal boxes	Paper/cardboard (fibre based)
Packaging	Honeycomb paper wrap	Paper/cardboard (fibre based)
Packaging	Grip seal bags	LDPE – 30% recycled content
Packaging	PE bags	Polyethylene (PE) – 30% recycled content
Packaging	Bubble wrap	LDPE – 30% recycled content
Packaging	Cardboard roll	Cardboard
Packaging	Cling/stretch wrap	LDPE – 30% recycled content
Packaging	Masking tape	Paper/cardboard (fibre based)
Packaging	Layflat	Low-density polyethylene (LDPE)
Packaging	Packaging tube	Paper/cardboard (fibre based)
Identification labels	Label	Paper
Transport packaging	Pallet stretch wrap	LDPE – 30% recycled content
Transport packaging	Pallet corners	Paper/cardboard (fibre based)
Transport packaging	Pallet banding	Polypropylene (PP)
Transport packaging	Pallet seals	Steel
Packaging	Reusable cable ties	Nylon
Packaging	Corrugated paper	Paper/cardboard (fibre based)
Identification labels	Documents enclosed wallet	LDPE

Compliance Statement

We hereby confirm, to the best of our knowledge and based on supplier declarations, material specifications and other information available to us, that the packaging materials used in the supply of our products comply with the applicable requirements of Regulation (EU) 2025/40 (PPWR), based on the information

available at the date of issue. The above assessment is based on supplier declarations, material specifications and other information provided by the relevant packaging suppliers.

Heavy Metals

Based on supplier declarations and information available to us, the packaging materials covered by this statement comply with the applicable limits for lead (Pb), cadmium (Cd), mercury (Hg) and hexavalent chromium (Cr(VI)) under applicable EU packaging legislation.

REACH

Packaging materials are supplied in accordance with the requirements of Regulation (EC) No. 1907/2006 (REACH). Any information requiring communication under Article 33 of REACH will be provided where applicable.

PFAS

Based on information provided by our packaging suppliers, PFAS substances are not intentionally added to the packaging materials covered by this statement. The packaging materials are not intended for food-contact applications and, accordingly, the specific PFAS requirements for food-contact packaging under Regulation (EU) 2025/40 are not applicable to their intended use.

Packaging Minimisation

Packaging is selected to provide appropriate protection for products during storage and transport while seeking to avoid unnecessary use of packaging material.

Design for Recycling

Based on information and statements received from our packaging suppliers, the packaging materials covered by this statement are recyclable where indicated by the relevant supplier. Recyclability is dependent on the material type and the availability of appropriate collection and recycling facilities. Where packaging comprises multiple materials, recyclability is subject to the applicable recycling system and facilities.

Recycled Content

Where confirmed by our packaging suppliers, certain packaging materials contain recycled content. This includes specified plastic packaging containing 30% recycled content and cardboard/fibre-based packaging manufactured using recycled fibres/materials. Recycled content claims are based on information provided by the respective packaging suppliers. Where recycled content has not been specifically confirmed, no recycled-content claim is made.

The information contained within this statement is accurate to the best of our knowledge and is based on information supplied by our packaging manufacturers and our internal purchasing records available at the date of issue. It will be reviewed where there are material changes to the packaging materials, supplier information or applicable legislation.

Yours sincerely,

Samantha Deverell

Managing Director
